# SUPPLEMENTARY FIGURE S9

Hate speech | Seed-42 BanglaBERT | IG vs SHAP

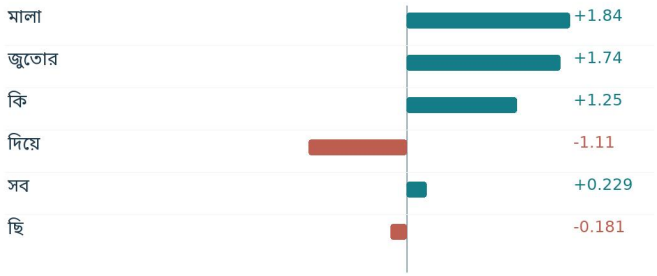

Selected actual TP/TN/FP outcomes; target = predicted class (not corrected gold).

**TP | test row 1395 | source=1, predicted=1 | p=0.9504**

IG 256 integration steps; absolute completeness residual = 0.00614; no truncation

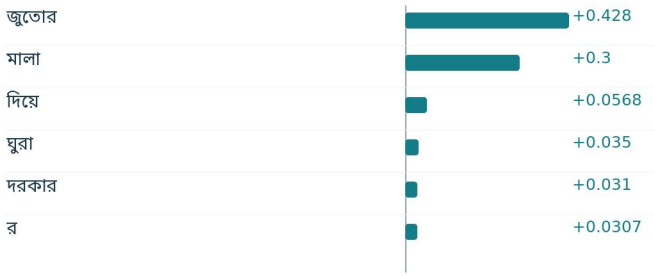

**Layer Integrated Gradients**

Signed logit attribution

**SHAP**

Signed probability attribution

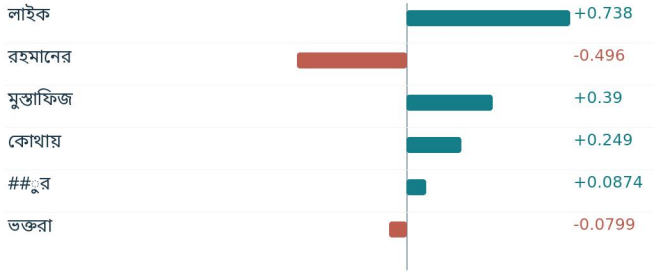

**TN | test row 526 | source=0, predicted=0 | p=0.9979**

IG 256 integration steps; absolute completeness residual = 0.00013; no truncation

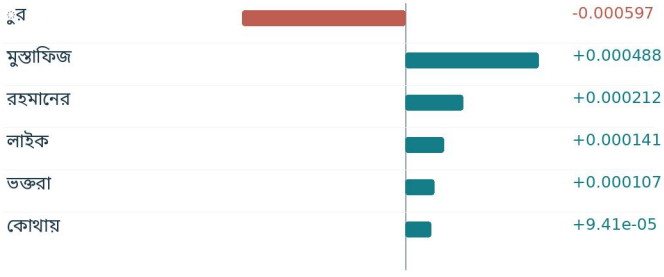

**Layer Integrated Gradients**

Signed logit attribution

**SHAP**

Signed probability attribution

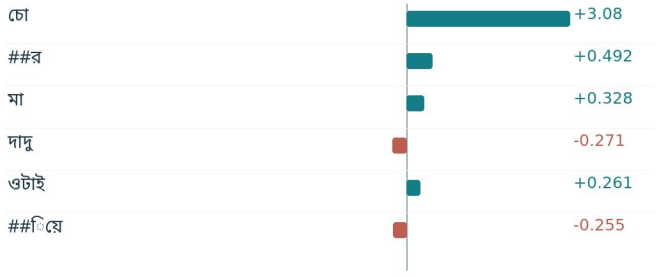

**FP | test row 4759 | source=0, predicted=1 | p=0.9505**

IG 256 integration steps; absolute completeness residual = 0.00183; no truncation

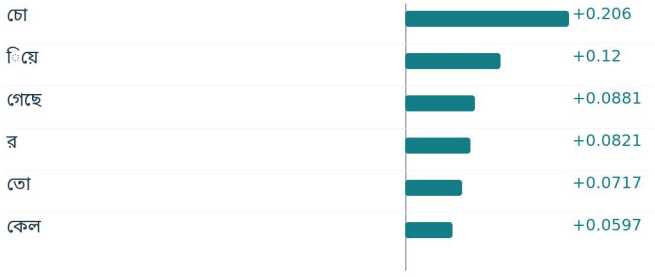

**Layer Integrated Gradients**

Signed logit attribution

**SHAP**

Signed probability attribution

Teal supports the predicted class; rust opposes it. Panels are independently scaled.

Illustrative examples only; no FN in this saved 20-case cohort. IG/SHAP units differ.
